to schedule a visit  
call 610-874-1476,  
ext. 145.**

Products purchased at the **Sight Solutions** store help people with low vision and blindness with activities of daily living.

The **Center for the Blind and Visually Impaired** also offers a variety of other services designed to help people who have lost or are losing vision. These services include low vision evaluations by specially trained optometrists, rehabilitation teaching, computer and access technology instruction, casework services, employment services, and support groups.

Please contact the Center for further information or to schedule a visit.

# What Is Sight Solutions?

**Sight Solutions** is a specialty store dedicated to helping people with vision loss meet the challenges they face in daily living, both at home and in the workplace. **Sight Solutions** promotes optimal living for people with low vision or blindness.

At **Sight Solutions**, customers have hands-on experience with products. In the store's relaxed, home-like setting, customers try out items before purchase. Knowledgeable staff evaluate vision history, offer suggestions, and assure that choices will benefit the customer in the best way possible.

## Is Sight Solutions For You?

If you have visited your eye doctor, and you still have difficulty recognizing a familiar face, reading the newspaper, or watching T.V., **Sight Solutions** may be for you! **Sight Solutions** offers adaptive products designed to make life easier for people with vision loss. These products are essential for today's active lifestyle.
